

Description

All-season high-performance motor oil with selected base oils in conjunction with new future-oriented additive technology. Prevents from oil sludge. The formulation has a beneficial effect on sealing materials and thus on the leaktightness of engines. Ensures low oil consumption. High lubricating film stability ensures reliable operation.

Properties

- optimum stability to aging
- high wear resistance
- good cold-start behavior
- suitable for gasoline and diesel engines with and without exhaust-gas turbocharging
- prevents black sludge
- low evaporation loss
- high shear stability
- very good dispersion properties
- good cleaning action
- ideal with catalytic converters

Areas of application

For engines with high mileage. Universal engine oil for gasoline and diesel engines (with and without exhaust-gas turbocharging and with and without intercooling). Especially suitable where there are long intervals between oil changes and extreme running conditions.

Application

The operating instructions of the motor vehicle and engine manufacturer must be followed.
